### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Monica Choi (Reg. No. 41,671) on June 8, 2007.

The application has been amended as follows:

- **Claim 1**, line 14: the phrase "through of each" is deleted and replaced with --through each--
- **Claim 11**, line 14: the phrase "through of each" is deleted and replaced with --through each--

### ***Allowable Subject Matter***

**Claims 1-20** are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination including the limitations of:

(**Claim 1**) "...minimizing charge gain failure in the memory device after the predetermined stress time period with a transition of less than the predetermined number of bits for sequencing to each subsequent address during the cycling through

each of all possible row and column addresses of all of the row and column address bits.”

(**Claim 11**) “...means for minimizing charge gain failure in the memory device after the predetermined stress time period with a transition of less than the predetermined number of bits for sequencing to each subsequent address during the cycling through each of all possible row and column addresses of all of the row and column address bits.”

As dependent **claims 2-10 and 12-20** depend from an allowable base claim, they are at least allowable for the same reasons as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
